Competition of

BICYCLE ASSEMBLY

Organised by

Mechanical Engineering Students Association

on

17th Sept. 2019

Objective:

To enable students to showcase their practical talent through involvement in such technical events.

About Event:

Mechanical Engineering Students Association (MESA) organised Bicycle assembly competition for the students on 17th Sept 2019. The view was to engage students for utilising the basics of mechanical engineering in assembling the different parts and components of the bicycle. A huge response was being gained by the organisers. More than 60 students from the department participated in the competition.

The Entries were accepted in a group of 4 members each. A completely disassembled Bicycle was being given to every team and they need to assemble it in minimum time, once the bicycle is being assembled the member from same team is needed to ride the bicycle in the given path, and at the end of the ride the winner was being decided, seeing the time taken and the condition of bicycle they assembled.

The event got good response from the participants as well as from the audience who gathered in the campus for cheering their favourite team.

17 Sept.
2019

Competition of

BICYCLE ASSEMBLY

Outcome:

This Competition helps the student to utilize their basics of engineering and to analyze and overcome the technical difficulties involved in it. It also helps them in time management and team building.
