### **Objective of the Program**

The primary objective of this online workshop is to enhance awareness and understanding of Intellectual Property Rights (IPR), with a special focus on patents and design filing. The workshop aims to equip participants—students, researchers, faculty members, and innovators—with the fundamental knowledge and practical insights needed to identify, protect, and manage their intellectual property. More objectives as follows:

- **To Emphasize the Importance of IPR in Academia, Research, and Industry:**  
Highlight the role of intellectual property in protecting innovative ideas, encouraging creativity, and fostering economic growth in academic and industrial settings.
- **To Explain the Patent System in Detail:**  
Offer in-depth knowledge about the structure and functioning of the patent system—both nationally and internationally—including criteria for patentability, types of patents, and the lifecycle of a patent.

- **To Guide through the Patent Filing Process:**  
Walk participants through each step of the patent application process, including prior art search, drafting specifications, filing procedures, and prosecution.
- **To Clarify the Process of Design Filing:**  
Introduce the concept of industrial design rights and provide practical steps for registering a design with regulatory authorities.
- **To Share Real-World Case Studies and Best Practices:**  
Provide insights through case studies, expert talks, and real examples of successful patent and design filings to reinforce learning with practical relevance.

## Overview of the Program

The online workshop on “**Intellectual Property Rights, Patents, and Design Filing**” is designed to provide a foundational and practical understanding of intellectual property and its significance in the modern innovation landscape. In today’s knowledge-driven economy, protecting creative and technical innovations is essential not only for legal security but also for enabling sustainable growth and competitive advantage.

## Program Details

The program was organized by the **Department of Mechanical Engineering** under the **Institution’s Innovation Council (IIC)**. The resource person for the event was **Dr. Bharat N. Suryawanshi**, Assistant Controller of Patents & Designs, **RGNIPM, Nagpur**. The program was anchored by **Prof. M. M. Tayade** Assistant Professor from the Electrical Engineering Department. The event commenced with a welcome address by **Dr. C. M. Jadhao**, Principal, **MGI-COET, Shegaon**, who welcomed the honorable resource person and all participants, and provided a brief overview of the program. This was followed by a detailed introduction of the resource person by **Dr. R. B. Ingle**, Head of the Department, Mechanical Engineering.

Following the introduction, the technical session began. The event concluded with a formal **vote of thanks** delivered by **Prof. M. M. Tayade**.

### Program Outcomes

By the end of the session, participants will be able to:

- Understand the basics and significance of various forms of IPR.
- Learn the process and legal aspects of patent filing and design registration.
- Gain practical knowledge on drafting and submitting patent and design applications.
- Encourage innovation and foster a culture of protecting creative and technological outputs.
